

WHY Clear Aligners?

- Made from a premium thermoformed plastic material that is engineered for precision fit, ongoing force retention, and exceptional durability
- Tear and stain resistant
- Manufactured in the USA using FDA 510(k) cleared MDSAP certified processes
- Each Clear Aligner is marked with a unique identifier code for the case and the stage

MODULAR PACKAGING

- Our modular packaging accommodates as many stages as the case requires
- Modular Box includes:
 - Clear Aligners in baggies
 - Care Kit: carrying case, removal tool
 - Patient Guide
 - Treatment Review Plan

TREATMENT OPTIONS

Perfect for Esthetic Cases

- Anterior and premolar movement like crowding, spacing, midline shift, overbite, and open bite
- No molar movements or band treatment
- Clear retainers available

ADVANCED ENGINEERING

- Premium Material – continual force for faster treatment and greater comfort for your patient
- Improved Stain Resistance – starts clear, stays clear
